Were All Animals
Kimya Dawson

```
F                        Bb
When you get older your body will grow hair
C                      F
On your legs and arms, and even down there
F                                   Bb
Some people shave theirs off but I let mine grow,
C              F
because IÂ´m an animal,
C              F
because IÂ´m an animal.
```
