Feel It All
KT Tunstall

```
                      Am
I m growing like a seed
                       Fmaj7
Rains been falling on me
                       C
I ve been covered in cold
                         G
I ve been shrouded and downed
                  Am
My heart is on a wire
                        Fmaj7
Sailing pretty like a bird
                  C
But the hunter is out
                  G
And the eagle is hurt

The word that I
 F    Am       G
Feel, feel it all
           F  Am
Yes, I can feel
         G
Feel it all

                    Am
I m looking to the sky
                                Fmaj7
And I ll be listening to the stars
                       C
And maybe thinking of you
                          G
And wondering where you are
                              Am
Do you know what you ve done for me
                       Fmaj7
You made my branches grow
                             C
Now they can play with the wind
                         G
And they can carry the snow

               F  Am
And they can feel
```

```
         G
Feel it all
               F  Am
Yes, They can feel,
         G
Feel it all

                  Am
So take what you want
                     Fmaj7
Leave what you don t need
                          C
And I ll go looking for you
                           G
You keep your eye out for me
                          Am
 cause our heart is on a wire
                      Fmaj7
Sitting pretty like a bird
                    C
But the hunter is hunting
                 G
And the eagle is us

            F  Am         G
And we can feel, feel it all

             F  Am         G
Yes, we can feel, feel it all

           F   Am    G
Oh, we can feel it all
            F  Am     G
yes, we can feel it all

  F          Am
Feel, feel, feel it all
 G
feel, feel it all
 F           Am         G
feel, feel, feel it all

And we can
 F  Am         G                F Am G
Feel, feel it all, feel it all

 Fmaj7 = X33210
