As I Am
Lee Younger

```
G        A                        Bm              G
When I run (girls echo) from You so fast (echo)
G               A         Bm             G
When Im ashamed of all my past
G                     A    Bm                 G
Youre seeking me with love that lasts
      G            A     D
You love me as I am

When all I feel is loss and pain
And I dont know what I should pray
You tell me do not be afraid
You love me as I am

            Bm            A     G     A
Theres no one like You (echo)
            Bm            A     G     A
Theres no one who can
Bm                A     G     A
Love like You do
      G            A     D
You love me as I am

When loneliness is all Ive found
And everyone has let me down
You say Youll always be around
And You love me as I am

When tears and hurt are all Ive known
And when my heart cant find a home
You say You want me for Your own
You love me as I am

(CHORUS)

You gave Your life, You made a way
You stirred my heart, You called my name
And when I got tired of my own way
You loved me where I was
And You love me as I am
