Intro: **B F# C# Ebm**

```
B                     F#
 They both met in the midnight sky,
C#              Ebm
 Got lost in each other s eyes,
      B              F#                G#m7
 Then threw away the map and lost the key,
 B                 F#
 God sent them the first two kids,
 C#                   Ebm
 One named Fire, the other one Wind,
          B               F#                G#m7
 With a note that floated down for them to read.
              B                 F#                C#
 It said  You asked what it was like up here for Me.

                          B  F#
 Mother Earth and Father Ti-ime,
 C#                 Ebm          B  F#
 Fell in love over Appalachian wi-ine,
 C#                     Ebm                B  F#
 Hit a rough spell and almost lost their mi-inds,
 C#                      Ebm                B  F#
 Raised a little hell before they fell in li-ine.

 B                    F#
 Fire came out with a restless soul,
      C#                  Ebm
 That only got worse as he got older,
        B         F#             G#m7
  Til finally he got too hot to tame.
 B                 F#
 Time said  Son I know it s hard but,
```

```
C#                      Ebm
 You re breaking your Momma s heart.
     B                      F#                   G#m7
 And Fire looked up through tears that made the rain,
                    B            F#           C#
 He said  Why is it everything I love I set aflame?

                          B  F#
 Mother Earth and Father Ti-ime,
 C#                 Ebm          B  F#
 Fell in love over Appalachian wi-ine,
 C#                     Ebm                B  F#
 Hit a rough spell and almost lost their mi-inds,
 C#                      Ebm                B  F#
 Raised a little hell before they fell in li-ine.

 B                     F#
 Wind was born to the open sky with a,
C#                 Ebm
 Bad temper and a wandering eye,
        B               F#              G#m7
 That kept him on the run for most his days.

 B                    F#
 Earth said  Listen, hear my child, see,
C#             Ebm
 I used to run that wild,
            B              F#             G#m7
  Cause it s hard to put a finger on the pain,
        B              F#               C#
 But son you can t outrun a thing like shame.

      B                   F#
 Then Time and Earth got on their knees,
     C#                    Ebm
 And prayed  Dear God, oh can t You see?
     B                   F#
 The Fire s too hot, the Wind s too cold,
     C#                    Ebm
 And loving them is gonna kill us both.
      B                    F#
 Then God reached down and took their hands,
 C#                      Ebm
 Dried their tears, and smiled and said,
         B                 F#                G#m7
  That s kind of what it s like up here for Me.
       B                F#              C#
 Yeah, loving them will cost you every-thing.

                          B  F#
 Mother Earth and Father Ti-ime,
 C#                 Ebm          B  F#
```
