     REm     SOL             LAm
mamalluca, mirando a lo profundo/:

mamalluca, traes los vientos cosmicos,
        LAm        REm         MI7
a refrescar, la amalgama inverosimil.
LAm  REm         SOL           LAm
mamalluca, de los montes que cobijan,
     REm     SOL            LAm
mamalluca, a los valles elquinos.

MI              LAm
mamalluca, mamalluca,
MI              LAm
mamalluca, mamalluca,
MI  LAm             MI
racimo, racimo celestial,
     LAm       MI    LAm
mamalluca, mamalluca.
     MI           LAm        MI   LAm
mamalluca, noche eterna, mamalluca,
     MI           LAm        MI   LAm
mamalluca, dia incierto, mamalluca.

   LAm REm     SOL          LAm
:/mamalluca, de tanto sumergirte,
               REm      SOL           LAm
en las vertiginosas cascadas de los cielos/:
MI    LAm  REm    MI
desapareces gota a gota,
                LAm
te haces transparente,
       REm         MI7
y eres montaña de viento.
LAm  REm    SOL      LAm
mamalluca, materia ignota,
     REm     SOL          LAm
mamalluca, espacio, puro nada.

     MI         LAm
mamalluca, mamalluca,
     MI         LAm
mamalluca, mamalluca,
     MI                     LAm
mamalluca, fragilidad de la vida,
     MI  LAm        MI
mamalluca,......mamalluca,
     LAm   MI             LAm-MI
mamalluca, nuestra misma galaxia,
     MI         LAm
mamalluca, mamalluca,
         MI        LAm
hasta el ultimo planeta.
