All Across The Havens
Elton John

Intro: **F# B7 F# B7**

Verse
F#
The sister of sunlight
B7
Comes to my lonely life
F#
Bearing the crosses I hung
B7
I hung on my lonely wife
Bbm
And the anchor told me
Ebm
If I prayed by the river
G#m7
That the sweet sound of water
C#7
Would always go with her

```
     F#         Bbm/F#         Ebm
All across the havens to the waterfall
     E
They told me I would meet her there
     G#m7
Inside those icy walls
    E
But how on earth in this universe
            B             C#7
Can they forgive me of my pains
F#                  G#m7
For all across the havens
B                    B/B G#m7      C#7
I must stumble locked in chains
```

Interlude: F# B7 F# B7

Verse
F#

Then the mother of mercy
B7
Showed me her stable
F#
And told me you would be safe
B7
Safe in her cradle
Bbm
And the waterfall opened
Ebm
And the water withdrew
G#m7
Leaving me standing
C#7
On a road leading through

All across the havens... etc.
