Love In A College Town
Luke Bryan

Love In A College Town

```
             C                           F
Girl I ll be over there with my buddies drinkin  beer
       Am                G               F
If you need me, come and get me When you hear our song
     C                                    F
In a little while When you re ready shoot me that smile
              Am             G                        F
That way I ll know, that its time to go, you got your buzz on

Chorus:
         F
We won t ever look as good as we do now
         C
So let s take another shot, drink another round
F                   F/D
Hug on one another, talk about each other
Am              G       F
Stay until they kick us out
F                                   C
Nothin  like love in a college town

All the rumors fly, did you hear who hooked up last night
Thought she was all about, cause all she talked about was some old boy back home
There s old what s-his-name, he just can t seem to graduate
Hittin  on the new crop, buyin   em lemon drops, man that s just wrong

Chorus

Bridge:
    G
I m gonna fail this test, thinking  bout your dress
F
Layin  on my floor, runnin  out the door
Am  G F              G
8.8 BAC, that sounds good to me

Chorus

Gotta  love love in a college town
```
