Candle in The Wind
Elton John

```
   Eb                                G#
Goodbye Norma Jean, Though I never knew you at all
                           Eb/G#                                    G#
You had the grace to hold yourself, While those around you crawled
                           Eb                        G#
They crawled out of the woodwork, And they whispered into your brain
                        Eb/G#                                   G#
They set you on the treadmill, And they made you change your name

Chorus:
        Bb                            Bb7         Eb             G#
 And it seems to me you lived your life, Like a candle in the wind
       Eb                                Bb
Never knowing who to cling to, When the rain set in
             G#                                Cm
And I would have liked to have known you, But I was just a kid
                          Bb                G#
Your candle burned out long before, your legend ever will

A|- E/G# - F#m - E

    Eb                                      G#
Loneliness was tough, The toughest role you ever played,
                          Eb                           G#
Hollywood created a superstar, And pain was the price you paid
                  Eb          G#
Even when you died, Oh the press still hounded you
                      Eb                                        G#
All the papers had to say, Was that Marilyn was found in the nude

(Chorus)

     Eb                                      G#
Goodbye Norma Jean, From the young man in the 22nd row
                                 Eb                                          G#
Who sees you as something as more than sexual, More than just our Marilyn Monroe

(Chorus)

                        Bb                  G#
Your candle burned out long before, Your legend ever did
```
