Bugs Dont Buzz
Majical Cloudz

Intro: **G Bm D G**

```
G                                    Bm
The cheesiest songs all end with a smile
                D                 G
This wonâ€™t end with a smile, my love

G                          Bm
Wait with me in slimy wet darkness
               D              G
Iâ€™ll be right beside you, my love

G                                Bm
Bugs donâ€™t buzz when their time approaches
                    D             G
Weâ€™ll be just like the roaches, my love

G                            Bm
It pays to be on the edge of existence
               D              G
Just riding the surface, my love

G                           Bm
The happiest songs all end with a smile
                    D              G
This might end with a smile, no my love

G                            Bm
If life could be forever one instant
                      D              G
Would it be the moment you met me? No my love
```

Outro; **G BM D G**...
