    Hey Nikita is it cold        in your little corner of the world
F                    C               F
    You could roll around the globe
C                            F             Bb
    And never find a warmer soul to know
F7                            Bb Cm Eb Bb                          F         Gm
    Oh I saw you by the wall           ten of your tin soldiers in a row
F                             C            F
    With eyes that looked like ice on fire
C7                            F           Bb
    The human heart a captive in the snow
