Crying In The Chapel
Elvis Presley

```
B                            E                                        B
   You saw me crying in the chapel, the tears I shed were tears of joy
                         C#7      Em       F#              B
I know the meaning of contentment,  now I`m happy with the Lord

                              E                                 B
   Just a plain and simple chapel, where humble people go to pray.
                                C#7      Em    F#                B   B7
I pray the Lord that I`ll grow stronger,  as I live from day to day

      E                  Em            B          Gm
I`ve searched, and I`ve searched, but I coudn`t find,
        C#7                             F#
   the way on earth to gain peace of mind.

                      E                                B
Now I`m happy in the chapel, where people are on one accord
                           C#7   Em       F#                  B E B B7
   Yes, we gather in the chapel, just to sing and praise the Lord
             E                 Em          B           Gm
   You`ll search, and you`ll search, but you`ll never find,
      C#7                            F#
   no way on earth to gain peace of mind

                           E                                    B
Take your troubles to the chapel, get down on your knees and pray.
                              C#7       Em            F#                 B
   Then your burdens will be lightened,   and you`ll surely find ...the way.
