White Christmas
Elvis Presley

Intro: **D**

```
D                  Em          A7
I m dreaming of a white Christmas
G             A7             D
Just like the ones I used to know
D                    D7
Where those tree-tops glisten
 G           Gm
And children listen
D        G           Em     A
To hear sleighbells in the snow
D            Em         A7
I m dreaming of a white Christmas
G          A7              D
With every Christmas card I write
D              D7         G       Em
May your days be merry and bright
D               A              D
And may all your Christmases be white

D              Em       A7
I m dreaming of a white Christmas
G           A7               D
Just like the ones I used to know
D                                          D7       G         Em
May your days may your days may your days be merry and bright oh
D               A              D
And may all your Christmases be white
```
