Generation
Emerson Hart

Capo first fret:

```
G                        C  G
You re comin  up like a flower
                              C
You re comin  up through the cracks
     B/C         Am
That live  round here
          Em            D  G
Everybody knows we have no fear
               C D (C walk down to G)
This is my generation
                       C     D   G
 Cause we just want to dance all night
                C     D  G
Live inside the spark of life
           Em     C         D
This might be the only time around
                           C   G
We wanna know the face of freedom
                             C      B/C      Am
We wanna make a place where we can learn to love
                   Em        D     G
Build a world that we can be proud of
               C  D (C walk down to G)
This is my generation
```
