My Foolish Heart
Engelbert Humperdinck

Intro: **D D7M D6 Fdim F#m F#m7+ F#m7 B7/9-**

```
             A                        F#m
The night is like a lovely tune
              D9                E7
Beware my foolish heart
              A7M                       F#m
How white the ever distant moon
              D9                      E7
Take care, my foolish heart
                  A               A7M               A7
There s a line between love and fascination
            D             D7M                D6       Fdim
That s so hard to see on evenings such as this
         F#m          F#m7+       F#m7
For they both give the very same sensation
                 D9             Bm5-/7            E7
When you are lost in the magic of a kiss
          A                                F#m7
Her lips are much too close to mine
        D9                     E7
Beware my foolish heart
    A7M              F#m
But should our eager lips combine
      D9           A7/13
Then let the fire start
E7  F#m          F#m7+      F#m7 Dm6
For this time it isn t fascination
             A                 A7M            F#7
Or a dream that will fade and fall apart
      D        B7        D9      Bm5-/7     A    A7M/9
It s love this time, it s love, my foolish heart
