```
G                        Cm                            G
Blinded by the vision I turn and face my back to the wall
             Cm                      F                       G
 Cause I m locked up in a rhythm the prism of a big glitter ball
G                                Cm                          G
Wrapped around your finger I m caught up in the middle with you baby
            Cm                           F                      G
With some laughter and drinking there s very little else I can do
F             C      G
Then I go and drop a bombshell upon you
F           C             G
I ve been making eyes at somebody else
F                C       G
You re no longer number one

G                       C
She loves the night and all that glitters
G                   C
Her name in lights around the city
G                    D              C   G
Don t you mess your life up Sunday girl
G                          C
You re rushing down like a rollercoaster
G                         C
Night on the town gonna make the most of
G                  D              C   G
We can dance  til Sunday morning girl

G                                Cm                       G
You re pushing and a-shoving me baby like a bitch to the wall
            Cm                      F                          G
But you re driving me crazy, right up to fever pitch I could fall
F              C              G
When you shine down your love light I m getting
F                C          G
Blinded by the sights and sounds
G                       C
She loves the night,and all that glitters
G                   C
her name in lights, around the city
G                    D              C   G
Don t you mess your life up Sunday girl
F       C       G
```

I will see you, I will get you
