Singin The Blues
Eric Clapton

E_C# D E C# D E C# D

I ve been working so hard, Just came home from my job.
Looked down in my wallet, Good GOD i ve been robbed.

Now where can my money be, All my hard earned pay.
What am I gonna do now, I got so many bills to pay.

CHORUS

```
                          A                              E
You got me singin  the blues, And I m paying all my dues.
                          A                            B
You got me singin  the blues,  Ain t got nothing to lose.
```

I got to tell you I got the blues in my pocket,
people, What did I say.
Bills are gonna rob me tomorrow. Why I need my ten dollars today.

Chorus

Ain t no way to get even. Because, you know what I mean
Everytime I make some money Somebody s going to take it from me.
