Waltz Across Texas
by Ernest Tubb

[Verse 1]
```
        F#                          C#
        When we dance together, my world s in disguise
                          C#7                F#
        It s a fairy-land tale that s come true
                                            C#
        And when you look at me with those stars in your eyes
                C#7                       F#
        I could waltz across Texas with you
```

[Chorus]
```
        F#                        C#
        Waltz across Texas with you in my arms
        C#7                       F#
        Waltz across Texas with you
        F#                              C#
        Like a story-book ending, I m lost in your charms
                    C#7                       F#
        And I could waltz across Texas with you
```

[Verse 2]
```
        My heartaches and troubles are just up and gone
        The moment that you come in view
        And with your hand in mine dear, I could dance on and on
        I could waltz across Texas with you
```
