**Well You Can Do It Without Me**
**Father John Misty**

Father John Misty - Well, You Can Do It Without Me
Capo 1

[Intro] **B7 A E** 2x

```
       E
If you see a flaming sword in your dreams at night
         A
And feel inspired to assign me up to the front line
              E                        B7             E
Well give the order, you ll storm the border without me

          E
If they tell you you re a genius but you need some proof
        A
Ask anybody on the payroll to go out with you
         E                      B7              E
If they avoid ya, then they ll award ya definitely

   A
Nobody that s around just seems to get it right
How hard is it to follow just a few guidelines
       B7
And smile while you do it

         E
If you want a page written  bout you in the book
         A
But you need a food tester  cause you curse the cook
                 E               B7          E
I ll take some wine but you can dine without me

        A
Without me
Who would let you play God          B7
And make-believe that all the blasphemy
Is coming only from me?

If you re bound for the throne but the king won t die
I can occupy the queen but that s for her and I
I can do her and you ll be ruler without me

             E
Yeah you can do it
            B7            E       A       E
But you can do it without me
```
