

She Dont Want The World
3 Doors Down

Em

The open wound she hides
She just keeps it bundled up

D

And never lets it show
She can t take much more of this

C

But she can t let it go

Em

And that s ok, she don t want the world

Em

All the things she says
While he s just lying there

D

Without someone to hear her cry
She slips off into a dream

C

About a place to hide

Em

And that s ok, she don t want the world

Em

This love she feels
Everything she s ever known

D

Or ever thought was real
Seems like it s been thrown away

C

Now how s she gonna live

Em

It s ok, she don t want the world

Em

Those words he never spoke
Haunt her life, the memories

D

Of all the times before
She tried to show him love

C

While he would only ask for more

Em

But it s ok, she don t want the world

Em

Softly in her sleep
Pictures of the life she s longing

D

For slowly appear
She s seen them all before

C

But somehow never quite this clear

Em

She just smiles, she don t want the world

Em

This love she feels
Everything she s ever known

D

Or ever thought was real
Seems like it s been thrown away

C

Now how s she gonna live

Em

It s ok, she don t want the world

Em

A brand new morning shines
As she wakes up alone again

D

This time to face the day
She swears there s time to make it

C

As she simply walks away

Em

And it s ok, she don t want the world
