Luna Alt Mode
Forest Rain

Capo on 1
NOTE: This is based on Forest Rain s ridiculously high cover. (Which has a nice extra verse)
For Odyssey Eurobeat/EurobeatBrony s original key, use **C#m A F# E G# / C#m A B G#**
(keeping the capo on 1)
Using just the second set of chords might be more accurate, but I prefer it this way.
Enjoy, rate, and spread it around.

```
G#m                                  E
For a thousand years  I ve waited here for you
               C#m
Waiting every night
                              B           Eb
For I thought you were the answer to my life
G#m                                  E
Days turned into years and into centuries
                C#m
Patience had to fade
                              B               Eb
Don t you see that there is vengeance in my eyes?

G#m              E
Luna won t you cry for me
        F#              Eb
I m as lonely as I ve ever been
      G#m          E
I am forced back into the start
          F#          Eb            G#m
Is there any way to fix a broken heart?

G#m                                  E
Infinite despise and endless jealousy
               C#m
Bottled in my soul
                    B                  Eb
Has erupted as I m tearing through the skies
G#m                                  E
I am the creature now that feasts upon your dreams
                        C#m
and turns them to nightmares
                         B                  Eb
Now my anger will bring forth an infinite night

G#m              E
```

Luna won t you cry for me
F# **Eb**
I m as lonely as I ve ever been
G#m **E**
I am forced back into the start
F# **Eb** **G#m**
Is there any way to fix a broken heart?
