Unfinished Business
Mumford & Sons

Unfinished Business (White Lies) - Mumford & Sons

Capo 0

```
                B                  G#m       B
Just give me a second darling to clear my head,
         B                 G#m                 B
Just put down those sisors baby on the single bed,
    B                     G#m
The sand in the hourglass is running low,
  B                                        G#m
I came through thunder the cold wind the rain and the snow,
   B                 F#
To find you awake by your window sil
  F#                         E            B
A sight for sore eyes and a veiw to kill

  B                       G#m
I broke down in horror at you standing there,
    B                                G#m
The glow from the moon shone through cracks in your hair,
  B                       F#
I shouted with passion  I love you so much ,
    B                     G#m
But feeling my skin it was cold to the touch,
    B                         F#
You whispered where are you? I questioned your doubt,
    F#                      E                  B
But soon realised you were talking to God now,

                B                      E
But you ve got blood on your hands,
                B           G#m
And I know its mine I just need more time,
   B                      F#                        B (G#m)
So get off your low let s dance like we used too,
              B                        E
And there s a light in the distance,
            B         E
Waiting for me I will wait for you,
   B                      F#                        B (G#m)
So get off your low let s kiss like we used too
```

```
  B                        G#m
I looked in the mirror but something was wrong,
  B                     G#m
I saw you behind but my reflection was gone,
          B                        F#
There was smoke in the fireplace as white as the snow,
  B                           G#m
A voice beckoned gently,  Now its time to go ,
  B                     F#
A requiem played as you begged for forgiveness,
      F#                              E                  B
Don t touch me I screamed I ve got unfinnished buisness

               B                      E
But you ve got blood on your hands,
               B           G#m
And I know its mine I just need more time,
   B                      F#                        B (G#m)
So get off your low let s dance like we used too,
              B                       E
And there s a light in the distance,
            B         E
Waiting for me I will wait for you,
   B                      F#                        B (G#m)
So get off your low let s kiss like we used too            [x2]
