

**Eternity**

**3 Feet Smaller**

Eternity - 3 Feet Smaller

[Intro]

**F - Am - Dm - Bb**

[Verse]

**F**  
Who the hell are you?  
**Am**  
I thought I know you  
**Dm**  
But I just found out all I know is your name  
**Bb**  
The whole time I spent with you was just a game.  
**F**  
You played by your own rules, your acting s pretty good,  
**Am**  
All these years I thought we could  
**Dm**  
Spend eternity together now and forever  
**Bb**  
s there something more eternal than the word forever?

[Chorus] x2

**F**  
If you want to leave  
**Dm**  
Just talk to me  
**Bb** **F**  
We re both fed up of living our dreams

[Verse]

**F**  
Who the hell is this?  
**Am**  
Bothering our lives  
**Dm**  
I m no longer desensitised  
**Bb**  
All these years I have lived by your lies  
**F**  
So do what you want to, get drunk and get screwed  
**Am**  
By someone who s better than me,  
**Dm**

More tolerant than me, more laid back than me

**Bb**

I thought that we could spend eternity.

[Chorus]

**F - C - Dm-C-Bb**

[Bridge]

**F**                    **C**                    **Dm** - **C** - **Bb**  
We both need to work on ourselves to get this straight.

**F**                    **C**                    **Dm** - **C** - **Bb**  
I want to share with you before it s too late

**F**                    **C**  
Could you please spend eternity with me?

**F**  
Eternity

**F - Am - Dm - Bb** [x2]

[Chorus]

**F**  
So please don t leave

**Dm**  
Please stay with me

**Bb**                    **F**  
The dream I wanna live is you and me

**F**  
So please don t leave

**Dm**  
Please stay with me

**Bb**                    **F**        **C**        **D** - **C** - **Bb**  
The dream I wanna live is you and me-e-ee... Till eternity
