A/C# D A Bm E Esus E

[Verse]

```
A           D
Over there, just beneath the moon
           A         Bm        E Esus E
There s a man with a burden to keep
      A                D
And sleep will fall, wash outs rags and paperbags

Homes and lives passing by.
```

```
D                                E Esus E
Who will see the beauty in your life
D               A        Bm       E      A F#m
And who will be there to hear you when you call
D                                 E Esus E
Who will see the madness in your life
G                    D/F#      A       D A D Bm E Esus E
Who will be there to catch you if you fall
```

```
    A          D                                          A
Now dreams run wild, as lovers find their way through the night
      Bm          E Esus E
Not a care in the world
    A    D             A                D              A
And over there, oh the twinkling of the lights harbour lights

Say goodnight one more time
```
