Coldwater Morning
Neil Diamond

```
Am                                E7
One, knowing I m one, hearing of two
           C     F  C  F   Dm
And like a child believing dreams
         G7                C
Always a dream to take you home
Am                                   E7
Day, after the day, there comes the night
                C   F   C    F   Dm
There comes the knowing when you laugh
              G7
If you should laugh,
           C         C7
The night alone will hear
        F           G
And the night don t care
C   G     F      G
Coldwater Morning
C               G       F   G
Take off your nighttime shoes
C   G     F
Coldwater Morning
                              C
I ve been waiting so long for you
```

(same as first verse)
One, knowing I m one, hearing of two
Hearing of things that I once had
That you once had
And when the night would come
We d sleep like one
Coldwater Morning
Take off your nighttime shoes
Coldwater Morning
I ve been waiting so long for you
I ve been waiting so long for you...
