```
G-      D-      G-      D-      C-     D-      G-

                     G-
A holly oak tree is shading me
        D-                    G-
Planted by a passerby tossing acorn seeds
                         C-
Till one takes hold and grows to be
           D-                   C-
A shade of love inside a memory of
                    G- out---
You and me and that holly oak tree
------       G-
When we were young
                    C-
We could not afford fancy things, oh no
            D-
So we would swing and one day

We carved our names
    G-
Forever eternity

But as our hearts

And names distort
           C-
As the oak grows to be
            D-                  C-
A shade of love inside a memory of
                    G-
You and me and that holly oak tree
            D-                  C-
A shade of love inside a memory of
                    G-
You and me and that holly oak tree
interlude:
G-      D-      G-      D-
C-     D-      C-     D-      DM

          C-   G-
I will be home soon enough
   C-                   G-
Nature will make sure of that
        C-             Bb (or G-)
Even if I forget about her love song
