Vampire Blues - Neil Young

From the album On the Beach
tabbed by Howard Wright

The little intro riff goes something like this :

h = hammer on

```
E--------4---------3---------2-----------------4/2-----------|
B-----------------------------------------------------------|
G----0h4---4---0h3---3---0h2---2---0h1----0h4---/2-----------|
D-----------------------------------------------------------|
A-----------------------------------------------------------|
E-----------------------------------------------------------|
```

```
      E
I m a vampire babe

E
Suckin  blood from you

      G
I m a vampire babe

A7                 E
Suckin  blood from you

B7             A7
.................
```

E B7
.....

I can t remember the last two lines, but anyway, you ve got the chords.

Basically a straight blues-type progression, but with the G giving it a bit of life.
