1. You re walking on a long road on your own,
D
don t know where it ends but you got to go
Em
You re walking with a broken dream alone,
C                   D                 G

G
You left it all behind just to start again,

Em
But you will rather walk in the pouring rain
C                   D                    G
and you will rather die than to feel the same

When you were close loose it all fall apart
       G               D                  C
Then I found you and I reached in to your heart
               Em             D                C
When you were close to let it go and turn back home
       G               D                C
Then I found you and I told you to move on

put your time in what you really want to be
Em
Never stop for what you know is just a lie,
C            D                G
walking on a road called clarity
