CRAZY FOR YOU

```
             A                                          E
I think you know, Iâ€™ll write you any song you want to hear
              A                   E
I think you know, how fragile my fear is
             A                   E
I think you know, how easy I get blue
             B                  E
I think you know Iâ€™m crazy for you
             A                              E
I think you know youâ€™re an angel when you sleep
 A                                            E
Oh how I watch you and I wonder what youâ€™re dreaming
A                                                         E
See the corner of your mouth crack a smile whatâ€™s it meaning
              B                  E
It means you know I â€™m crazy for you
   A                                                      E
Thereâ€™s something about you I just canâ€™t put my finger on
E
and when the love starts oooh
             A
thereâ€™s a sweetness running wild, it lights up the room
E
Hold on honey, I think Iâ€™m falling for you
             B                  E              A    E            A    E
I think you know Iâ€™m crazy for you, crazy for you,     crazy for you
A                                                         E
Last time I saw you, you were radiating heat through my eyes
A                                              E
Last time I saw you, you smiled as you rode on by
A                                                     E
Last time I saw you, it was your electricity in the air
A                                                  E
I was dreaming, I was lost in the jungle of your hair
                    B                     E              A              E
Ah but I think you knew, I was crazy for you, crazy for you, crazy for you
   A                                                      E
Thereâ€™s something about you I just canâ€™t put my finger on
E
and when the love starts oooh
             A
thereâ€™s a sweetness running wild, it lights up the room
E
Hold on honey, I think Iâ€™m falling for you
             B                  E              A             E

I think you know Iâ€™m crazy for you, crazy for you, crazy for you
