```
              C           G
And this will lead to the time

And dont forget to say goodnight

And I look you in the eyes

The temperature was cold but didn`t mean anything

Since then I miss you everyday and everynight

Everyday and everynight
                  C     D
Everyday and everynight

Everyday and everynight
```
