Rhythm.

Freak out!!             Le Freak c est Chic
```

And it s the same rhythm throughout the whole song. Pretty simple huh? The trick is to get
the timing right to give it that funky/disco sound we all love. It s a pretty catchy tune
and definitely worth a good listen because of the rhythmic possibilities. The song is in the
key of A and armed with that knowledge you should be able to use the A major pentatonic scale.

After the solo, Slash does this cool lick with the wah pedal.
