Hey, shut the fuck up boy
You are starting to piss me off
Take your hands off that girl
You have already had enough

Chorus:
```
C                          C/F#
 Hey, shut the fuck up boy
G                                 D
 You are starting to piss me off
C                               C/F#
 Take your hands off that girl
G                             D
 You have already had enough
```

C C C C C

```
                    G
You sure can get it up
                D        C
At least that s what you say
               C/F#   G
You don t know how to stop
               D     C
You just can t walk away
            C/F#    G
And when we saw her face
               D         C
You said she s something else
           C/F#       G
I know you just can t wait
     D               C
It s more than I can take
```

Bridge:
```
    Em        D       C
You just can t play it down
    Em        D       C
You just can t play it down
    Em        D      C
You just gotta lay it down
```

Chorus x2

(Octave Higher)

```
     G         C/F#  C  D         G   C/F#       C  D

B|-------------10-9-------------------------10-9-----|
D|-------------------11---------------------------11--|
G|-----------------------------------------------------|
A|-----------------------------------------------------|
E|-----------------------------------------------------|
```

```
             C/F#     G
It s getting hard to see
                D    C
Through all our history
             C/F#     G
I guess it s in your blood
           D     C
On that we can agree
            C/F#    G
And when we saw her face
             D         C
I said she s something else
             C/F#  G
She was your only  hope
              D       C
And still you let her down
```
