On The Ave
Pinhead Gunpowder

D(let ring)

```
D                            G               A      D
We chased each other wet + soggy like a crashing wave
D                        G              A           D
Grey + filthy in the gutter breaking all over the place
D                      G       A
Down the Ave. in the pouring rain
           G            A
Saying, even more! even more!

D                       G          A
At the reservoir you impaled your wrist
D                  G          A
On razor wire climbing the fence
D               G     A
I cut my thumb trying to
G             A
Climb into the blind-deaf school

D                  G          A        D
We were a mess, bloody and half-undressed
D                       G             A         D
In the shelter of the shadows of the Frisbie Street creek
     G          A
A canopy of trees and leaves
G               A
With us hidden underneath

DDD A

D           G    A
Time rolls over me
D           G    A
Time rushes over me
D            G    A
Why try to run so fast
G              A
It still passes you by

D                         G       A
I had some friends, a psychotic couple
D                         G       A
They had a room in a residential hotel
D           G       A
They fought in the bed
G               A
```

While we fucked on the floor

```
D                    G      A
We d only slept an hour together when
D                     G     A
The manager set the place ablaze
D                 G        A
I awoke to the smoke and flames
     G           A
And had to kick down the door

DDD A

D           G    A
Time rolls over me
D           G    A
Time rushes over me
D            G    A
Why try to run so fast
G              A
It still passes you by

D                      G         A
Why talk about what could have been
D                      G         A
Why walk around lost reliving moments
D          G       A
Why walk around at all
           G         A
When it s easier to drive a car

D                             G               A      D
We chased each other wet + soggy like a crashing wave
D                        G              A           D
Grey + filthy in the gutter breaking all over the place
D                      G       A
Down the Ave. in the pouring rain
           G(ring)  A(ring)
Saying, even more! even more!
```
