Drive
Halsey

```
  Em                      C
My hands wrapped around a stick shift
               G                D                Em
Swerving on the 405, I can never keep my eyes off this
C    G    D
  Em                        C
My neck, the feeling of your soft lips
           G                              D             Em
Illuminated in the light, bouncing off the exit signs I missed
C    G    D
            Em
All we do is drive
            C                                 G
All we do is think about the feelings that we hide
            D                             Em
All we do is sit in silence waiting for a sign
                C
Sick and full of pride
          G             D
All we do is drive
       Em                    C
And California never felt like home to me
       G                     D
And California never felt like home
       Em                     C
And California never felt like home to me
       G                   D
Until I had you on the open road and now we re singing
Em         C           G          D
Haaaaaaaaaaaaaaaaaaaaa Haaaaaaaaaaaaaaaaaaaaa
Em         C           G          D
Haaaaaaaaaaaaaaaaaaaaa Haaaaaaaaaaaaaaaaaaaaa
Em         C           G          D
Em         C           G          D

   Em                      C
His laugh, echoes down the hallway
               G                            D
Carved into my hollow chest, spreads over the emptiness
Em
It s bliss
C     G     D
Em      C
It s so simple but we can t stay
G                  D                                Em
Over analyse again, would it really kill you if we kissed
C     G     D

And California never felt like home
