          Here we are in this big old empty room,
Emaj9                        D#maj7           G#m7
          staring each other down

U want me just as much as I want U,
let s stopfooling around
Take me baby, kiss me all over
play with my love
Bring out what s been in me for far toolong
Baby, u know that s all I ve been dreaming of

Emaj9              D#maj7      G#m7
Do Me Baby, like u never done before
Give it to me till I just can t take no more
Do Me Baby, like u never done before
I want u now, I just can t wait no more, can t wait
