INTRODUÇÃO: **Bm7 G7 A G7**

(**Bm7 G7 A G7**)

If there s a scream inside of you just let it go  
You re beating yourself up baby don t you know  
You ve got to get through and lift the roof off your soul

(**Bm7 G7 A G7**)

It s like a pain lock in a part of your heart  
It s never going to leave it unless you start to warm it up  
Be wise and be smart

(**Bm7 G7 A G7**)

Out on the ocean  
There s no one around no one to hear a sound  
It s just us out here out on the ocean  
Speaking freely

(**Bm7 G7 A G7**)

Away from the city  
Away from the ears that bug us and judge us  
It s so liberating to be free  
And my heart slows down

(**Bm7 G7 A G7**)

Nice and easy  
And your breathing will be pleasing  
Just speak easy and say what s on your mind  
I search for something to compare you to  
Thought long and hard for a simile true  
Now I m suddenly aware  
End the quest you re beyond compare  
So speak easy

(**Bm7 G7 A G7**)

If there s a shadow in your life then there s sunshine  
Things turning inside out all the time just rewind  
It s all in your mind

(**Bm7 G7 A G7**)

Ooh so speak easy  
Out here we re floating  
Late in the night and the only light to guide us  
Is a full moon that s glowing on the sea  
And my heart slows down
