**Pop is dead**
**Radiohead**

```
A                     G#          G
Oh no, pop is dead, long live pop
                                 F#      Bm
It died an ugly death by back-catalogue
                               E     Bm
And now you know it gets you nowhere
                           E
And now you know, you realize

Oh no, pop is dead, it just gave up
We raised the dead but they won t stand up
And radio has salmonella
And now you know you re gonna die
          G              A C D E G
He left this message for us

So what pop is dead, it s no great loss
So many facelifts, his face flew off
The emperor really has no clothes on
And his skin is peeling off

Oh no, pop is dead, long live pop,
One final line of coke to jack him off
Jack him off
```
