Something About You
Rubicon Rising

Hi Folk,

This band I saw in Sydney Australia last year in an open air concert and was taken with this song. The thing I really liked about the song is the guitar solo which is like a gypsy come mood rock solo, very nice. Anyway hope you like it as much as I do.

The intro is running up and down a Dm chord

Verse and Chorus Chords

On the prowl, Saturday night
Ill look around, youre in my sights
your the one Im looking for
You, got something about you

I m looking good, you know I am

Youre the one Im hoping for
You, got something about you

Ill have my fun, Ill have my way
Ill take you down, youll want to stay
Im a drug you need some more
You, got something about you
