Hearts Of Olden Glory
Runrig

Hearts Of Olden Glory. One of the many amazing Rungrig Songs.
Ive seen them twice now and they just get better and better!!

Capo 3rd fret
Pluck.....
Intro: **G**

```
                G                          D
There s thunder clouds round the home town bay
        C            G
As i walk out in the rain
G           D                 C               D
Through the sepia showers and the photoflood days
G                              D
I caught a fleeting glimpse of life
C                         G
Though the waters black as night
G           D                     C      D
The colours of Scotland leave you young inside
```

Chorus

```
Em              C
There must be a place
G         D
Under the sun
Em              C     G          D
Where hearts of olden glory grow young
```

Verse2

```
G                      D
Theres a vision coming soon
            C                      G
Through the faith that cleans your wounds
G               D      C       D
Hearts of olden glory, will be renewed

G                                      D
And down the glens where the headland stands
C                             G
I feel a healing through this land
G                    D           C                 D
A cross for our people, like the wind through your hands
```

Chorus

Enjoy!!
By XEMX (Runrigs Biggest Fan) Aged 16!!
(I Love Ryan, the keyboard player, he s gonna go far!!)
