All We Ever Needed
Rush of Fools

Tabbed by: Bethany Harb
Please rate!!

```
E        A             C#m        B
A heavy heart I bring, for I am tired Lord
E      A                 C#m  A
Awaken my lost love for You
E          A             C#m              B
Take this heart of stone and warm this bitter cold
E       A                C#m   A
Awaken my lost love for You

            E                     B
Let Your children fall down and worship
              C#m                   A
Fall down and know You for You are holy
            E                B
Let your children rise up before You
           C#m                  A
Rise and adore You for You are holy
          E
You are holy
```

Remind us who we are when we have wandered far
Awaken our lost love for You
And like the morning star, You chase away the dark
There is no shadow here with You, with You Lord

(chorus)

```
C#m       A        B      A
Just a glimpse of You is all we ever needed
C#m      A         B      A
Just a touch from You is all we ever needed
C#m      A         B     A
Just a glimpse of You is all we ever needed
      A                    E
It s all we ever needed, Lord
```

(chorus x2)
