```
                       C#
You can pick up the phone and
                 G#m
I know, no one s home but
                    B               F#
I don t think you know how much it means
                  C#                     G#m
just to hear the sound of your voice even if
                           B         F#
it s your voice on the answering machine
                 C#                  G#m
I m holding my breath until you come back again
        B                      F#
but the air is getting less and less
            C#                  G#m  B
I need love CPR, but you re so far away

                         C#
Don t you let my heart die boy
            G#m
this is an emergency
B              F#
you re what I need
                    C#
All it takes is for you
                      G#m
to come and put your lips on me
 B              F#
you help me to breathe
             C#
resuscitate me
                 G#m
I m begging you please
                  B        F#
you re all that I need
               C#                  G#m

                      C#
```

```
Although there is a time in the place
         G#m
that I will see your face
          B              F#
it s still hard to wait around
               C#                  G#m
the problem is this seems so easy to miss
            B

            F#
I need you here and now
            C#                G#m
you are the place that I fall apart and now
   B                 F#
I don t know where to start
            C#                G#m    B
I need love CPR, but you re so far away

                         C#
Don t you let my heart die boy
            G#m
this is an emergency
B              F#
you re what I need
                     C#
