To make it easier:

C#m11 = 2
Bm7+5 = 3

```
E                     2             3
There comes a son, A son of angels
(3)
Carrying an empty glass
D                 2
Trying to fill it to the surface
3
Well tell your thirst love has passed

     D         2
You carry on, carry the world
     3
You must get worn with all the weight
E                 2                     3
I take it in but you won t no where
(3)
And no where s where we re headed fast
```

[Chorus]

```
Am   G         D
    Oh, oh, Rodeo
Am    G                  G
    Slow turning to and fro
```

```
Am    G        D
    Oh, oh, Rodeo
     G
    Where we land no one knows
             E           2    3
    no one knows...
```

We re not blind to what it is
In other words, the ignorant kind
Well life is short, but oh it s wide
It s wide enough to change your mind

Well I believe in ever-after
Just in case what s after that
Don t I love you like the angels
And could you ever love me back?

[Chorus]

Strangers now we are becoming
Stranger now we have become
If any fiction every returns
Returned by the coolest one

[Chorus]
