How It Comes Is How It Goes
Jay Malinowski

Capo on 2nd fret (chords are **A**, **Dadd9**, **F#m7**, **E**). If you want to do the picking, Cadd9 slides up 2 frets so it becomes Dadd9. Awesome explanation, not so much, listen to the song or youtube it.

How It Comes Is How It Goes

```
G            Cadd9               Em7
Lord, how it comes is how it goes
D                                Cadd9       G
You don t need to chase my ghost anymore
G              Cadd9          Em7
Ghost in those cuts I used to see
        D                   Cadd9      G
Are the cuts that you would see in me

          Em7             G
So how it comes is how it goes
      Cadd9          G
Kinda seems a cruel joke
Em7              D               Cadd9       G
We don t need to be our fools no more
        Em7              G
I saved you and you saved me
    Cadd9      G
You need it to leave
Em7               D        Cadd9        (G)
And I can t blame you for anything

Girls, some girls are talkin  mad
About things and lives and love they never had
You, you should run free
And be the one you were always gonna be

So how it comes is how it goes
Kinda seems a cruel joke
We don t need to be our fools no more
I saved you and you saved me
You need it to leave
But lets make this the last long we will sing
Yeah I guess this is the last one we will sing
```
