Jerry Lee Lewis

```
C                   F                     C
Got you on my mind feeling kinda sad and low
F                                         C
Got you on my mind feeling kinda sad and low
G7                                                C   F C
Wondering where you are wondering why you had to go

                     F                      C
Tears begin to fall every time I hear your name
F                                         C
Tears begin to fall every time I hear your name
G7                                                  C    F C

   F                                                        C
