Around some corner, where it s been waiting to meet you

G Am Em G D Em A D

[Verse]

```
          Am
Walk into splintered sunlight
Em                    C                       G      D
Inch your way through dead dreams to another land
               Am
Maybe you re tired and broken
     Em                          G                 A                            D
Your tongue is twisted with the words half spoken and the thoughts unclear
```

[Chorus]

```
            G
What do you want me to do
   Am              Em      D
To do for you, to see you through
  Am               C
A box of rain will ease the pain
    G                D          G
And love will see you through
```

[Bridge]

```
                     Am       Em
Just a box of rain, wind and water
  C                  A7
Believe in it if you need it
       D                      G
If you don t just pass it on
                Am       Em
Sun and shower, wind and rain
C              D
In and out the window
       Em             A
Like a moth before the flame
        D              Em
And it s just a box of rain
        G               D
I don t know who put it there
                  Bm
Believe it if you need it
   G                A
Or leave it if you dare
        D              Em
And it s just a box of rain
     G               D
Or a ribbon for your hair
       Em
Such a long, long time to be gone
      G                D
And a short time to be there
```
