Honky Tonk Wine
Jerry Lee Lewis

```
C                      G7                  C
Sweet honky tonk wine keeps me out of my mind
                              G7                C
All she left behind was some sweet honky tonk wine

While I was out drinking and laughing my woman has home a packing

And all she left me was a bottle and a note

Saying I m out enjoying myself
                G7                C
On some of that sweet honky tonk wine

                      G7                  C
Sweet honky tonk wine keeps me out of my mind
                              G7                C
All she left behind was some sweet honky tonk wine

Well I m sitting here feeling empty

As that old wine bottle that she left me

Cause I can t hold enough to stop me from thinking

That she s out holding somebody
                    G7                C
And a drinking that sweet honky tonk wine

C                      G7                  C
Sweet honky tonk wine keeps me out of my mind
                              G7                C
All she left behind was some sweet honky tonk wine
```
