Cold Blue Light
Joel Plaskett

Intro: **Am**, **F**, **C**, **G**, **F**, **C**, **G**. x3

```
F              C
I awoke on the couch
Am                         G
With the cold blue light upon me
F                  C
All alone in this house
Am                 G
Awaiting your return
F                       C
I can still smell your perfume
Am                   G
And I kinda like it now
```

Intro: **Am**, **F**, **C**, **G**, **F**, **C**, **G**. x1

```
F                      C
There was little left unsaid
Am                         G
And you gave me your best wishes
F                  C
Now I ve got an empty and unmade bed
Am                          G
And a house full of dirty dishes

Dm
When I m sleeping, this world disappears
F
When I am with you, there s nothing to fear
Dm           F
But when I m without you, I live in the shadows and space
E
To take me away from this place
```

Intro: **A**, **F**, **C**, **G**, **F**, **C**, **G**. x3

```
              F                        C
I pull off the covers, I rolled up the blinds
               Am                    G
I went to the kitchen, I put on the kettle
              F                         C   Am   G
I sat at the table, And stared out the window
       F                C         Am              G
I can still smell your perfume, And I kinda like it now
```
