Song To The Devil
Julie Miller

[Intro]
C

[Verse]
```
                          F               C
You want me to say things I don t want to say
                          G
You want me to play games I don t want to play
    C                   F               C
You want me to do things I don t want to do
   F                              G
So I don t like you anymore, and now I m through with you
```

[Pre-Chorus]
```
                 F  C       G              C
I m through with you___ and all your dirty lies
   F                                G
It doesn t matter what you say, I m telling you goodbye
                 F  C           G        C
I m through with you___,  cause now I realise
    F                             G               C
You had me on a string  til Jesus opened up my thighs
```

[Chorus]
```
                 F
I m through with you, I m through
    G                        C   F   G C
I m through, I m through with you
```

[Verse]
```
                             F            C
You came on like my friend, acted really sweet
                                     G
But you made lots of promises you didn t ever keep
C                          F                 C
All you ever wanted was to break my heart in two
   F                            G
So all I got to say to you is,
```
