

**Streets Of Gold**  
**3OH!3**

**Bm**                      **G**  
You can say it all

**D**  
And I can bite my tongue

**Am**  
Cause it would take all week

**Bm**  
To tell you where I m from

**G**  
I know what your about

**D**  
Why don t you close your mouth?

**Am**  
And step right over here

So we can dance this [out]

**Bm**                      **G**  
These lazy days are way to long

**D**                      **Am**  
Like razor blades, under your tongue

**Bm**                      **G**  
And the city lights, will burn you down

**D**                      **Am**                      **Bm**                      **G**  
Or build you up,                      high above the ground

**D**                      **Am**                      **Bm**                      **G**  
High above the ground,                      high above the ground

**D**                      **Am**  
High above the ground

( **Bm G D Am** )
