She Thinks I Still Care
Kaau Crater Boys

Verse 1
```
C             F               C
Just because I asked a friend about her,
C              G7             C
Just because I spoke her name somewhere,
C                       C7           F
Just because I rang her number by mistake today,
C          G7      C
She thinks I still care
```

Verse 2
```
C              F                  C
Just because I haunt the same old places
C                        G7           C
Where the memorys of her linger in the air,
C                       C7sus   C7      F
Just because I saw her then win all the pieces
C          G7      C
She thinks I still care
```

Chorus
```
    C        F                      C
And If she s happy thinkin  I still need her,
C                                    G
Then let that silly notion bring her tears
F                        C
How could she ever be so foolish,
C   D7                           G7
And where would she get such an idea?
```

Verse 3
```
C              F             C
Just because I ask a friend about her,
C              G7                 C
Just because I spoke her name somewhere,
C                        C7          F
Just because I m not the happy guy I used to be,
C          G7      C
She thinks I still care
```

Instrumental

Chorus

Verse 3
