```
                    G                Gm
I ve got some fat to loose
                            D
And something else too
             G                            Gm
I never knew the rules
                         D                                        G
Because I ve never had a girlfriend
                          Gm              D
I suppose I ve got a lot to learn
                      G               Gm
I don t know anything
               D
I m only seventeen
            G                        Gm
I go to public school
                    D                                                  G
They never taught me anything I need to learn
                         Gm
But someone told me where to find out

D                       E
Out where the lights are red
               G                   A                                  D
And the pretty ladies call from their shop floors
                          E
Out where the films are blue
               G                         A                            D
And the licensed places never shut their doors
         E                          G
I will go there-bingo
                D
I will find out
               E                     G
```

I will discover-bingo

So I went up to town

And the pretty ladies call from their shop floors
E
Out where the films are blue

and I found out
E **G**
Yes I discovered-bingo

What the fuss is about

Interlude (**G**, **Gm**, **D**) x 2

But as I tried to leave
They gave the bill to me
I couldn t quite believe
They made me pay a hundred pounds for diet coke
Or they would call my mother

Out where the skies are black
And they wait for another victim to piss on
Out where the kids are green
And are thick enough to left themselves be conned
Yes I went there-bingo

and I found out
Yes I discovered-bingo
What the fuss is about
